

Salta & Jujuy, 4 days / 3 nights

Come and discover the charm of one of the best-preserved corners of colonial life in our country. Admire the magnificent natural scenery of the North, declared a UNESCO world heritage site, and wander through traditional villages where time seems to have stopped. Meet local artisans and their unique crafts such as tapestries and textiles; sheep, llama or alpaca wool ponchos; gold and silver.

The word Salta derives from the Aymara dialect "sagta", which means beautiful, and in fact today it is known as Salta "La Linda" (the beautiful one). It is situated in a fertile valley that even today still bears the name of its founder "Valle Lerma". San Bernardo Convent, San Francisco Church and the Cabildo with its stunning arches, stand out most amongst Salta's architectural colonial heritage.
